[www.entropicindustries.com](http://www.entropicindustries.com)  
**Curriculum Vitae**

**EDUCATION** Bachelor of Architecture, Minor in Fine Arts,  
Carnegie Mellon University, 2002

**BIO** Jared Winchester is a licensed architect in New Mexico and founder of the architectural design studio, Entropic Industries. Jared has over 10 years of experience working professionally on a wide variety of building types both locally and internationally and was previously an Associate at Antoine Predock Architects P.C.

Jared looks to collaboratively explore new possibilities within the field of architecture through design research, architectural competitions, public art, material technological experimentation, and publications. Of particular interest in the field of design has been the notion of the architectural object as defined by its assumed condition of stasis and permanence in time being questioned through its interactions with dynamic and unpredictable forces. Entropic Industries explores ways in which the forces of time and nature can not only be mitigated through the architectural design, but be utilized as a catalytic ingredient.

**AREAS OF INTEREST** Architectural Design, Drawing, Theory, History and Methodologies

**COURSES** Arch 221, Arch 521

**SERVICE** AIAS Freedom by Design Mentor  
Albuquerque Public Art Design Selection Committee

**AWARDS** Honor Award, Ghostfield - AIA Albuquerque Design Awards - 2012  
Finalist - ISEA 2012 Albuquerque Public Art Design Competition - 2012  
Merit Award, Patterned Occupancies - AIA Albuquerque Design Awards - 2011  
Citation, Landslide Mitigation Housing - AIA Albuquerque Design Awards - 2011  
1st Place - D3 Natural Systems Architectural Design Competition - 2011  
Runner-up - Pamphlet Architecture 30 Competition - 2009  
Special Recognition - High voltage transmission line towers, Iceland - 2008  
Honorable Mention - Innovative Ideas for Porto Water Tanks, Portugal - 2008  
Finalist - 2G Competition. Venice Lagoon Park - 2007

**PUBLICATIONS** Featured projects - Bracket 2: Goes Soft, by Actar, Bhatia and Sheppard, ed. - 2013  
2G Dossier: Concurso 2G Competition, Parque de la Laguna de Venicia - 2008  
Landsnet: Selection Committee's report for the Competition - 2008
