Curriculum Vitae

EDUCATION M.S. Arch., Columbia University, 1988
B.A., University of New Mexico, 1984

BIO Since 1988, Kramer E Woodard Architect has practiced architecture in Albuquerque while simultaneously teaching at the University of New Mexico School of Architecture, Planning & Landscape Architecture. He is also the creator and principal designer of S3, a prefabricated building system company. He began his career working as a designer and draftsman for various architects in Santa Fe, New Mexico. Notable was his tutelage under John McHugh, who was responsible for the design of the first two Santa Fe Opera houses and who had apprenticed under John Gaw Meem in the 1950s. Obtaining a BA in architecture in 1984, he began work for Antoine Predock on several major projects. Subsequently attended Washington University in St. Louis and completing his master's at Columbia University in 1988. That year, he began teaching at the School of Architecture and Planning, and launched Kramer E. Woodard Architects. In 2001, he collaborated with Steven Holl Architects on various projects. In 2008, he founded S3, a prefabricated building system company based upon a design innovation he developed on principles of sustainability. He holds a patent on this prefabricated building system. Woodard has lectured throughout the U.S. and has held teaching positions at The Royal Melbourne Institute of Technology, Australia, Columbia University, Rice University, (Cullinan Chair, 2000), University of Texas at Austin, (McDermott Chair, 2000), and The Pratt Institute.
