Shannon Kraus, AIA is a Vice President and Healthcare Practice Leader in the DC office of HKS. With a background and education in both architecture and business, he enjoys teaming with clients and users to identify and synthesize operational, technological, and strategic market variables into integrated and implementable design solutions.

Professionally, he has worked with several of the top health systems in the U.S. and abroad on complex facilities ranging from freestanding heart hospitals to criminal justice facilities, multi-family housing, and retail. His work has included replacement hospitals, short stay hospitals, and ambulatory care facilities.

Shannon has served as Vice President on the American Institute of Architects Board of Directors, Chair of the National Associates Committee, and has worked with the Clemson University & University of Texas at Arlington Schools of Architecture. He was awarded young architect of the year from the AIA in 2005, and from TSA in 2006. In 2008 he was named one of building design and constructions 40 under 40, and in 2009 was honored as one of the Dallas Business Journal's 40 under 40 honorees. Currently he is the chair for the 2010 convention in Miami. A believer in professional development, shanon has long been active with NAAB, IDP and is mentoring several students with the ARE. His previous NAAB team experience includes Detroit Mercy, New School of Architecture's initial accreditation visit in 1996, and most recently NJIT with the first digital team room.
