

TICRAT | NEW MEXICO 2022

TALLER INTERNACIONAL DE CONSERVACIÓN Y RESTAURACIÓN DE ARQUITECTURA DE TIERRA

The International Workshop on the Conservation and Restoration of Earthen Architecture (known by its Spanish acronym TICRAT) is a bi-national partnership between the U.S. National Park Service and its Mexican counterpart, the Instituto Nacional de Antropología e Historia (INAH). Since 1994, these hands-on workshops have convened adobe experts from both countries to disseminate traditional earthen building practices and ensure the safeguarding of the integrated cultural heritage across the US-Mexico border. TICRAT | New Mexico 2022 is a project of partnerships between the Vanishing Treasures Program of the U.S. National Park Service, University of Arizona's College of Architecture, Planning, and Landscape Architecture, University of New Mexico Historic Preservation and Regionalism Program, and Cornerstones Community Partnerships. It is administered by Cornerstones.

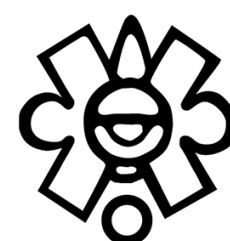

TICRAT | New Mexico 2022 will include presentations, hands-on workshops and field trips focused on techniques and strategies for conserving and restoring earthen architecture such as adobe brickmaking, building condition assessment, adobe wall repair, and mud plastering.

Registration fee starts at \$350. [Click here for more information and to register.](#)

Registration fee will cover transportation from Santa Fe, NM to Abiquiú and other travel, lodging, meals while at workshop.
